BAC 37295 (CIT-B-21A4) overlaps cosmid R31665 (AC005498) to the left from bases 1 to 10,159 of this accession, and is separated from BAC 330812 (CIT-B-470F8; AC006115) to the right by a sequence gap of unknown size. Additional chromosome 19 map and sequence information are available at: http://www-bio.llnl.gov/bbrp/genome/genome.html.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      Lamerdin, J.E., McCready, P.M., Skowronski, E., Sakaldasis, G., Burkhart-Schultz, K., Gordon, L., Dias, J., Scott, D., Stilwagen, S., Phan, H., Velasco, N., Do, L., Regala, W., Terry, A., Danganan, L., Erler, A., Christensen, M., Georgescu, A., Avila, J., Attix, C., Andreise, T., Amico-Keller, G., Coefield, J., Duarte, S., Lucas, S., Bruce, R., Thomas, P., Quan, G., Kronmiller, B., Arellano, A., Sanders, C., Ow, D., Nolan, M., Trong, S., Kobayashi, A., Olsen, A.S. and Carrano, A.V.
